NASTRI™

Design is a bit like a puzzle. It is an occasional invisible and intricate path that never ends. In some cases it is scientific, precise, linear, in others it is pure magic, mystery, evocation.

The feeling is that of playing with a colored ribbon, with inextricable tangles, which makes it accessible to its public again and then rewinds itself in ever new, surprising and wonderful knots.

And so is life, a sinuous path, with infinite nuances, made of ups and downs, peaks and deep falls into the abysses, adventures and stasis, strong emotions and endless boredom. Because an experience, like existence itself, begins long before departure and does not end until the web of emotions continues to flow like an inexorable river.

And it is precisely the eternal flow of water in the river bed that inspired this collection, the desire to create something different from any point of view, always in line with the leitmotiv of all UNICA products and every form found in nature.

CINTA™

"NASTRI" COLLECTION

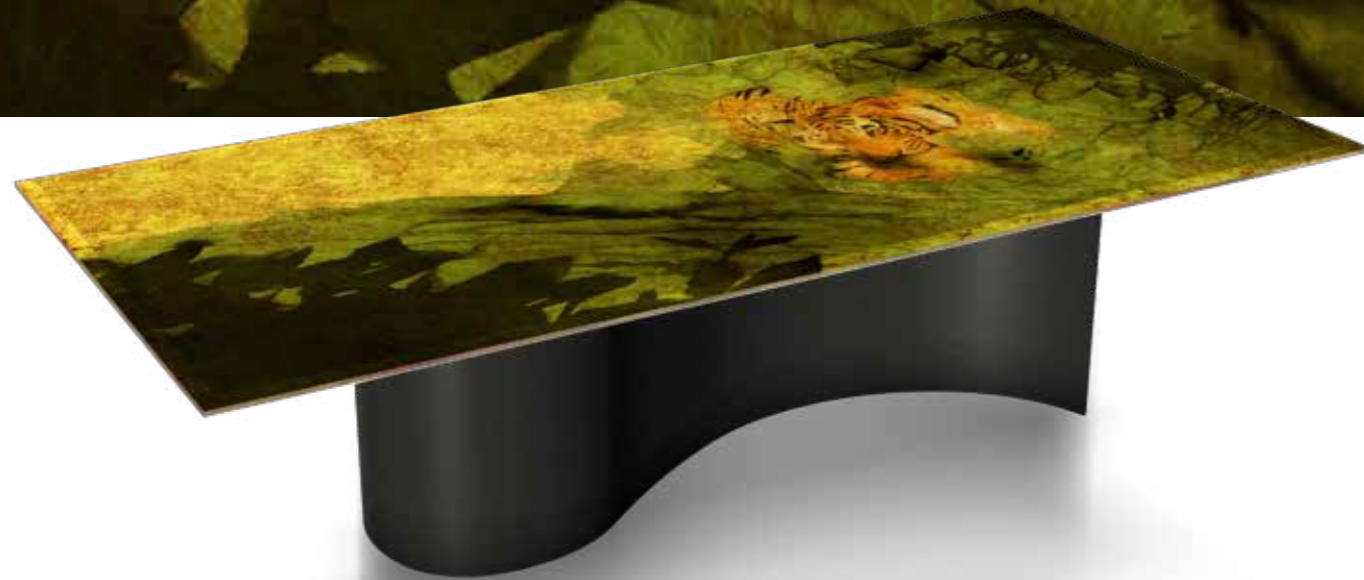

Table with extra-clear tempered and bevelled glass top, thickness 10 mm., decorated with gold leaf effect and digital printing.

The concept behind our products is the **removal of barriers between environments**, allowing nature to "invade" all spaces; nature, an inexhaustible source of inspiration.

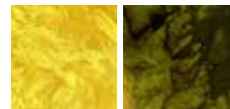

In order to make a small, but meaningful gesture to support nature and endangered species, we **adopted a tiger** over the course of 2020. Her name is **Cinta** and she lives in the **Bukit Tigapuluh National Park** in Sumatra, Indonesia.

The tiger is a **noble and proud animal**, historically feared and respected as a **symbol of strength and charisma**, which unfortunately has seen its population reduced by 95% in just over a century.

The adoption of **Cinta**, whose name means "love" in the Indonesian language, allows us to make a tangible contribution to the conservation of an animal species of fundamental importance for the ecosystem.

Cinta is perfect to represent our brand UNICA. In 2021, as part of UNICA's collaboration with the world of fashion, we selected, from the archives of **Fondazione FRI (Fashion Research Italy)**, a sketch made by **Studio Boggia** for Silkin that has a wonderful tiger as its subject. It was the inspiration for a beautiful new collection created within the UNICA brand to celebrate the anniversary of the adoption of our beloved Cinta.
